

MAKING DATA MEANINGFUL

WE SPECIALIZE IN ENGINEERING-BASED ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING THROUGH DATA ANALYTICS AND OPTICS

We Collect, Analyze and Visualize your Data!

Our Proprietary Data Analytics and Visualization Platform

- Advanced Data Visualization Dashboard
- Creating Asset Management Optimization Tools
- Custom AI & ML based Data Analytics
- View & Manipulate Data: HD, Thermal and LiDAR
- 3D Annotation tool, 3D Distance, Area & Volumetric Measurement Tool
- Orthomosaic Map View - HD, Thermal & Digital Elevation Models
- Image Comparison Tool/Change Detection
- Fully Automated Back-End Data Processing on Cloud Servers

At InfraSix, we use proprietary algorithms for:

- Analyzing massive amounts of data
- Building & Structure Classification
- Automated measurements of structures & land
- Mapping and Surveying
- Change Detection and Monitoring
- Automated defect & anomaly detection
- Predictive Analysis, Rapid Response, Quantitative Support
- Custom models based on client needs
